

Contact Information

The insurance documentation provided on our website will satisfy the vast majority of contractual requirements for proof of insurance, and we are hopeful that is your experience. Please note that it is not necessary to have your company name on the Certificate of Insurance (COI) as long as there is a contract in place, as the COI addresses this via the wording in the Description of Operations section.

If the Certificate of Insurance on our website does not meet RockTenn Company's written contractual obligations to your company, please inform your contact at RockTenn from which the Certificate of Insurance is required and they can request that a COI be issued to meet our contractual obligations.

If after reviewing these documents you have any questions, please contact the RockTenn Company Risk Management Department.
